

E1 dominant environmental variable

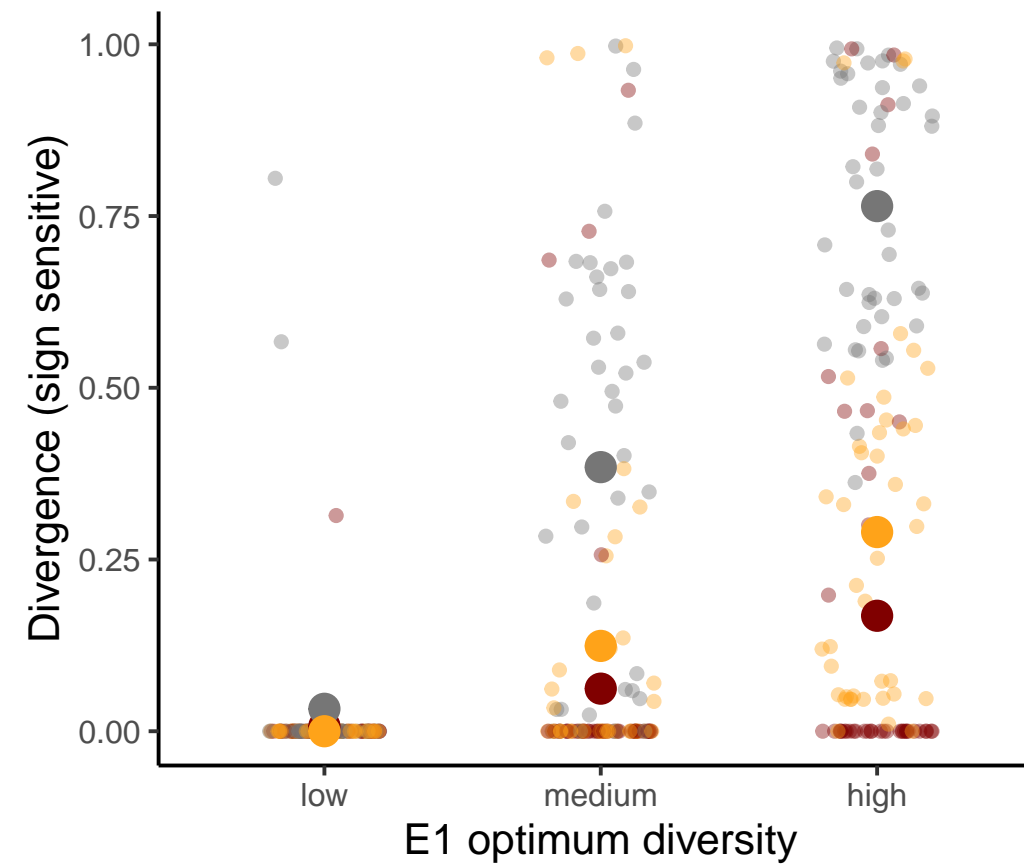

(a)

Only variation in E1
optimum diversity

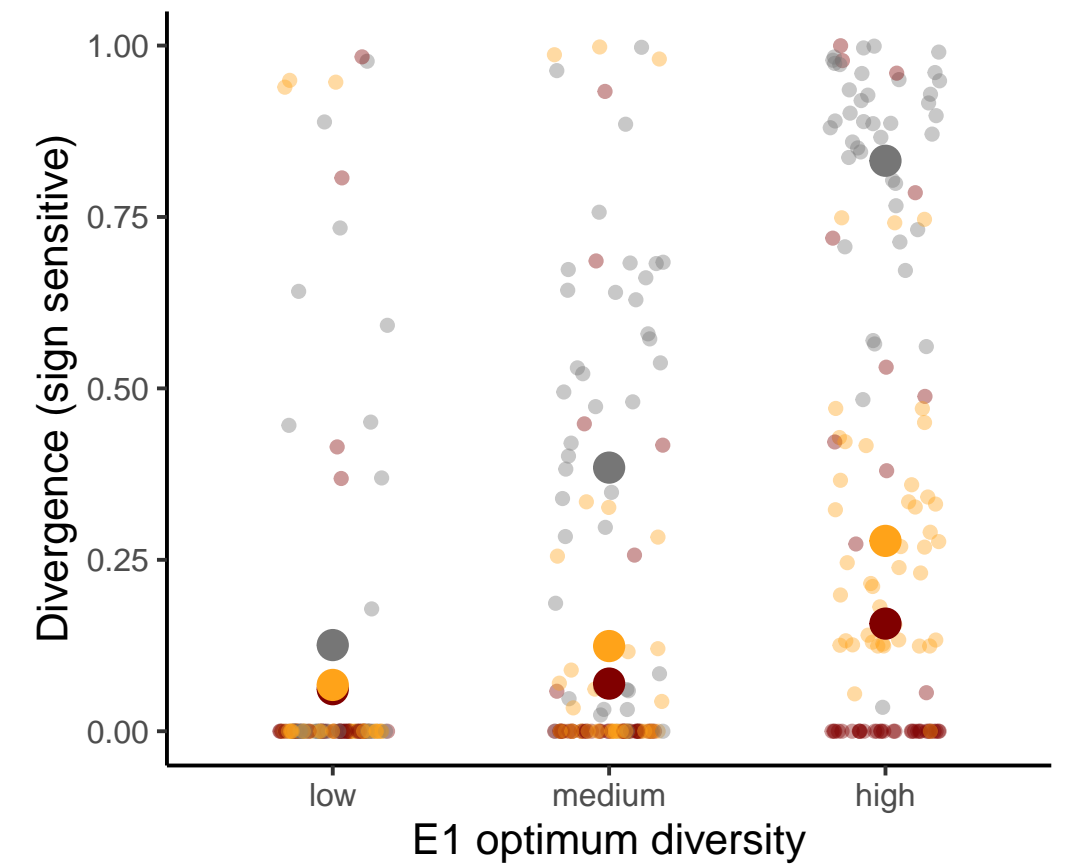

(b)

Variation in E1 and E2
optimum diversity – positive correlation

(c)

Variation in E1 and E2
optimum diversity – negative correlation

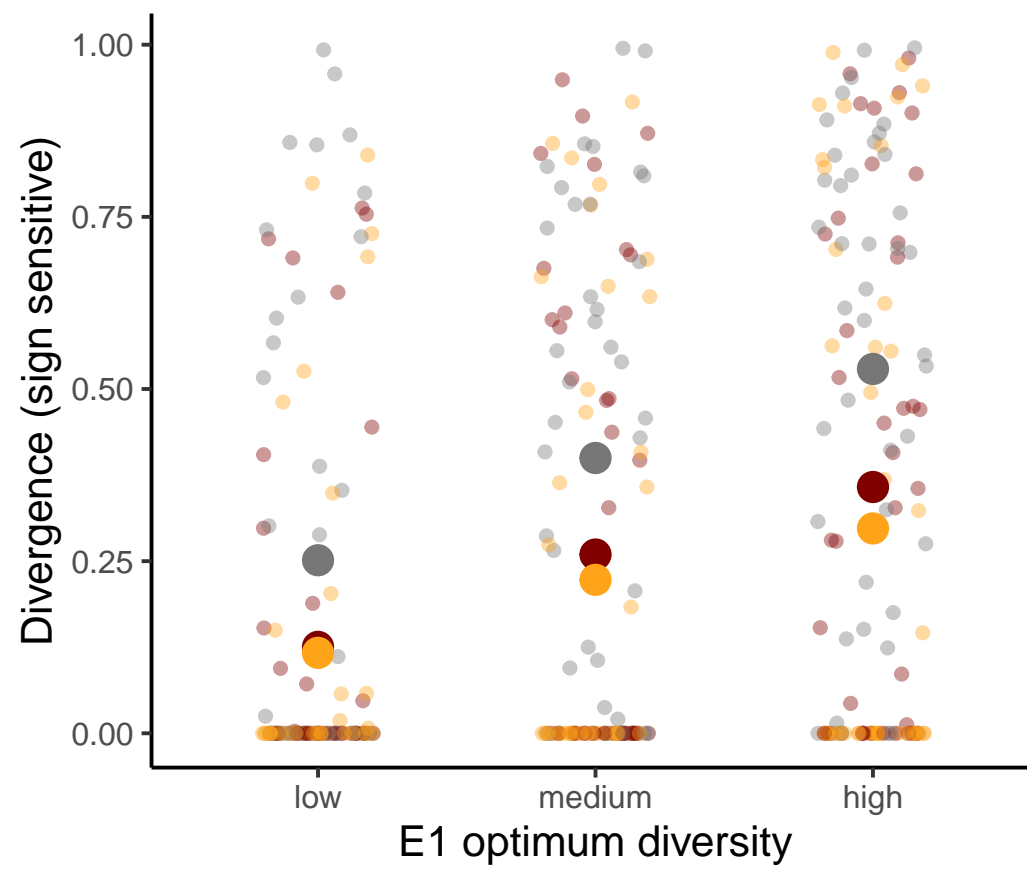

E1 mean value ● low ● medium ● high

Equal effect of E1 and E2

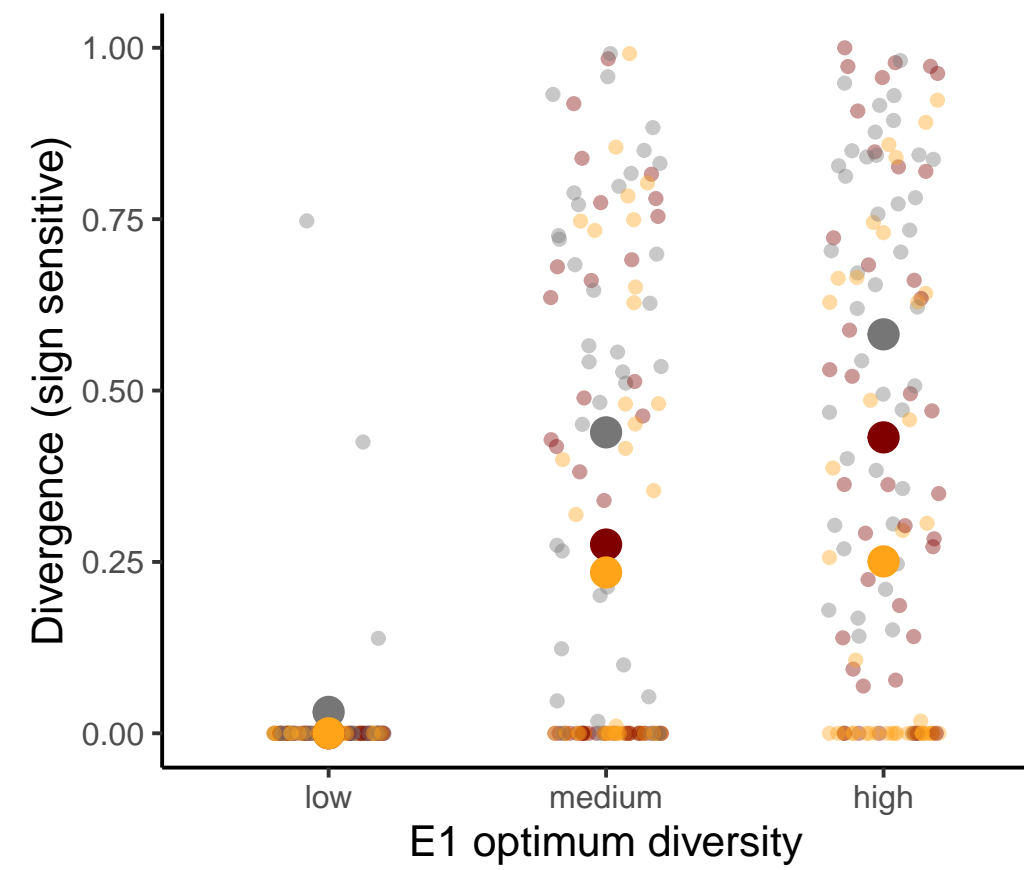

(d)

Only variation in E1
optimum diversity

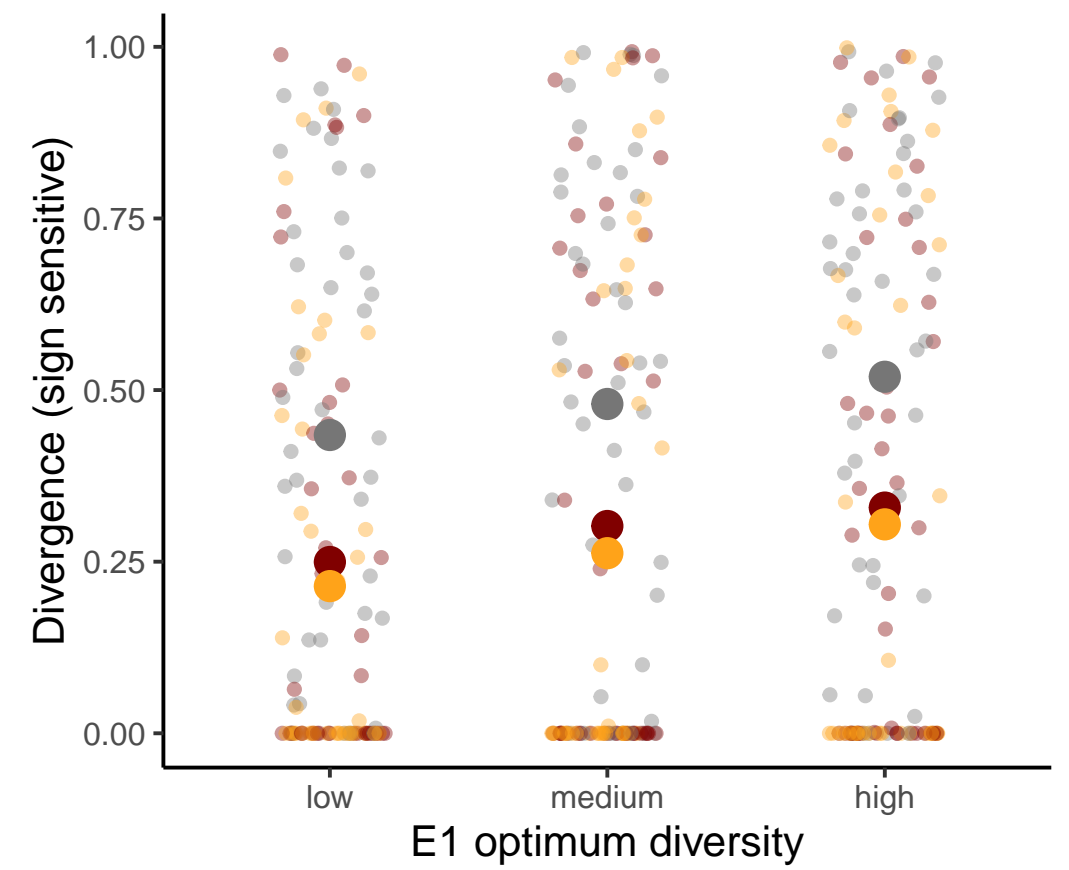

(e)

Variation in E1 and E2
optimum diversity – positive correlation

(f)

Variation in E1 and E2
optimum diversity – negative correlation

E1 mean value ● low ● medium ● high
